

Track TPMS

Track Grade Tire/Tyre Pressure Sensors

Team Plus[®] Track Grade TPMS solutions are a step above the average sensors. Built to our own specifications, our external or internal sensors have high resolution accuracy and motorsport level update rates. Track Grade TPMS streams LIVE by Bluetooth to the Team Plus[®] TELDASH™ smart phone app, OR to your CANbus race dash logger using Team Plus[®] CANGate[®].

10Hz Sample and Transmit

the Track Grade TPMS is specified to sample and send updates 10 times every second. Much faster than most available TPMS solutions.

0.1psi Accuracy

Track use requires accurate measurement and setting of pressures. The Team Plus[®] Track Grade TPMS solutions are specified to measure to 0.1psi accuracy.

Pressures on the CANBUS

Using the Team Plus[®] CANGate[®] combined with the Track Grade TPMS you can log and display your pressures with your other CANBus data.
